- TIFS has been providing reliable 3PL warehouse services for **over 30 years** from our distribution facility in Sydney, Australia.
- Our efficient automated process and exclusive deals with transport providers give you **substantial savings**.
- Senior managers and our customer service team are on site every day to personally assist you with your enquiry.

OUR SERVICES

Warehouse Distribution

TIFS delivers fast, reliable, and cost-effective warehousing and distribution services from our Sydney operations center, serving companies both in Australia and around the globe.

Pick, Pack and Send

TIFS seamlessly integrates with major eCommerce platforms to ensure your business operates without interruption. Our pick and pack team promptly fulfills each order and prepares it for dispatch.

3PL Logistics

While you concentrate on the front-end of your business, TIFS handles the backend seamlessly, managing order integration, storage, pick, pack, and dispatch.

eCommerce Fulfillment

Our automated warehouse system is fully integrated with major eCommerce platforms, ensuring that your orders are picked, packed, and dispatched in real-time.

Publication Fulfillment

Our warehouse system can be tailored to meet your specific needs. We offer flexible delivery options for your publications or marketing materials, whether it's to a single address, multiple retail locations across Australia, or internationally.

Print and Design Services

If you need additional print materials or are planning promotional campaigns, our studio team is here to support your creative needs from concept to delivery.
